MIHP HA-1999
Earhart House (Resource 4)
3650 Churchville Road
Aberdeen, MD 21001

This property consists of a two-story frame house, three bays wide and two rooms deep. The house has a side gable roof and is clad in aluminum siding. The house is located on the north side of Churchville Road, with the main façade facing south. The primary façade has three bays, with the entry in the center bay. The windows flanking the entry are six over six, double-hung sash with shutters. There is a one-story shed roofed addition along the eastern façade, one bay wide and two bays deep. The roof of the house is clad in asphalt shingles. There is a small wooded storage shed at the rear of the property. The building was erected in 1950, according to tax assessment records, and possesses no architectural or historical significance according to National Register of Historic Places criteria.

According to tax assessment data, the building was erected in 1950 (MD Real Property Search). Although it is associated with the post-World War II building phase of Harford County, the Earhart House is not of exemplary style or craftsmanship. The Earhart House is not associated with persons or events important in history. The building is not a significant type, period, or method of construction, the work of a master, or in possession of high artistic value.

RE: Reconstruction of I-95 and MD 22 Interchange
Aberdeen, Harford County, Maryland (Article 83B §5-617 Review - MdTA)

Dear Mr. Miller:

The Maryland Historical Trust has received the "Historic Architectural Survey, John F. Kennedy Memorial Highway Improvements to the MD 22 Interchange, Harford County, Maryland," prepared by Silber & Tabachnick (December 2000). The report is well prepared and will be a welcome addition to our Library. On Attachment 1 lists some minor corrections that we would request the preparers make for the final Report. Trust staff also have examined the forms and photographs and below are our comments on eligibility and effect for the project on historic properties in the Area of Potential Effect.

Silber & Tabachnick identified twelve properties which were more than fifty years of age, and provided new inventory and determination of eligibility forms for each. Based on the information provided, the Trust is able to concur that all of the following resources are **not eligible** for inclusion in the National Register of Historic Places:

HA-1296	George W. Baker House
HA-1297	Baker-Solley Outbuildings
HA-1554	Baker Cemetery
HA-1996	Majerle House
HA-1997	Steffe House
HA-1998	Hettchen House
HA-1999	Earhart House
HA-2000	Baine House
HA-2001	Vest House
HA-2002	Andrews House
HA-2003	Gilley House
HA-2004	MdTA/Johnson House

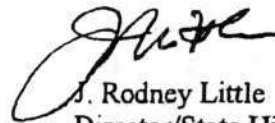

Mr. Kurt A. Miller, P.E.
February 22, 2001
Page 2

The house, outbuildings and cemetery associated with the Baker family were once a single parcel of land. However, as is typical of an area which is changing from farming to suburban development, the subdivision of the property has occurred in a way that has destroyed the cohesiveness of the former Baker holdings. Most of the remaining houses were built in 1949 and 1950. Although these single family dwellings appear to demonstrate a single builder, and are examples of the FHA's minimal modern house, together and individually they lack the architectural qualities which would make them eligible under Criterion C.

Based on the information provided, it is therefore the Trust's opinion that the reconstruction of the I-95/MD 22 Interchange will have *no effect* on historic properties eligible for or listed in the National Register of Historic Places, including archeological sites and standing structures.

Thank you for providing us this opportunity to comment. Should you have any questions regarding the review of the project, please contact Ms. Anne Bruder (for structures) at 410-514-7636 or Ms. Elizabeth Cole (for archeology) at 410-514-7631.

Sincerely,

J. Rodney Little
Director/State Historic Preservation Officer
